- The Ossining Extension Center Patient Care Technician series of courses, which includes Infection Control for Phlebotomy students. Our students have a 95% pass rate for the National Certification Exams that correspond with each course.

- The non-credit Integrated Patient Care Technician Pilot-Program (PCT) was initiated in spring 2010 at the Ossining Extension Center. This program was funded by a Workforce Innovation in Regional Economic Development (WIRED) grant from the U.S. Department of Labor, Employment Training Administration, working in partnership with the Connecticut Department of Labor and Employment and The Workplace, Inc. For the first time, PCT students completed a hospital-based externship. As a grant-partner, Phelps Memorial Hospital served as the externship site for this student cohort.
- The Ossining Extension Center hosted its first semi-annual Health Career Fair in fall 2009 with over 55 attendees. The Health Career fair featured credit and non credit program information and employers from Westchester County hospitals as well as the American Red Cross. The Center will host its second semi-annual Health Career Fair in spring 2010.
- Awarded the Westchester Library System's 2010 National Library Week Recognition Award for outstanding contributions to libraries and literacy.

NEW INITIATIVES FOR 2010/2011

- The Westchester Community College Foundation will continue its fundraising activities in the community throughout the year.
- The Online Education Program will be building on its initial success and will continue expanding its offerings for the 2010-2011 academic year.

- EOC will expand collaborations with employers to provide internship and clinical sites for students enrolled in business and health programs.
- EOC will explore and develop new vocational training programs that offer certification, as resources allow, focusing on green initiatives, allied health and business. Certification of EOC's Medical Coding and Billing Program will be pursued.
- EOC will continue to seek out new initiatives and provide expanded support to the ESOL population to help them succeed in acquiring English language skills, developing vocational competencies, and enrolling in college.
- EOC will expand its marketing campaign to create greater visibility in the community. The goal of this effort is to encourage a greater number of low income community residents to take advantage of the free training that is available in the current economy.
- In Partnership with the Network for Teaching Entrepreneurship, and the Mount Vernon Youth Bureau, Mount Vernon Extension Center will continue to offer a 6 week intensive Summer Entrepreneurship Academy for Mount Vernon Youth.

- The Westchester Community College Center for the Arts in White Plains will continue to support local school districts with "Artist in Residence" programs and faculty development training.
- College Information Technology is continuing the process of expanding its wireless network for student laptop use throughout the campus, and at extension centers.
- The Information Technology Department is working on a plan to relocate the second datacenter to a larger room in the Classroom Building. The new facility will allow for greater security, increased cooling, and the space required to provide additional disaster recovery and backup capabilities.
- The Information Technology department installed and is currently deploying new security hardware that will monitor the network and check for security vulnerabilities.

- In addition to over 200 student PCs being replaced this summer as part of the College's 5 year technology replacement plan, 372 additional PCs/iMACs will be installed, increasing the total number of PCs/iMACs/laptops supported by IT to over 3000, including those in 6 remote locations.
- In the next year, the college plans to upgrade eighteen more rooms with SMART technology while adding an additional nine classrooms with enhanced instructional technology.
- Several years ago, SUNY embarked on a project to replace its legacy Institutional Research data systems. We are in the process of building the interfaces to PeopleSoft required to meet the fall 2010 deadline.
- The Information Technology department will continue to install green technologies in the Datacenter to help lower the cost of cooling and requiring less power.
- The Information Technology department will continue to look for ways to strengthen network security.
- The College is engaged in preparing its five-year Periodic Review Report for the Middle States Commission on Higher Education. The report will be submitted in June 2010.
- To provide the necessary support for students during their first year at the College, a First Year Experience Steering Committee was created and appointed to research and explore consultation options. During the academic year 2010-2011, this project will focus on providing an action plan for creating a First Year Experience program through studying the campus resources and needs.
- The Advanced College Experience (ACE) Program expects to add at least six more high schools and several hundred more students.
- In collaboration with the Yonkers Public Schools, the college received an SED Grant to continue the Collegiate Academy Program at Roosevelt High School.

- The Ossining Extension Center continues to offer individual state certification training courses that are in high demand and prepare professionals for various roles in childcare, education and healthcare such as the Infection Control Seminars, Child Abuse Prevention Seminars, CPR workshops, School Violence Prevention and Intervention Workshops, and Spanish for Healthcare Professionals courses.
- The Gateway Center at Westchester Community College will open in the summer of 2010. This 70,000 square foot multipurpose building will provide critically needed classrooms and interdisciplinary academic space. Departments in the Gateway Center include the Modern Language department and English Language Institute; the academic business faculty and the Professional Development Center. Four new centers will serve the student body and the community - The Welcome Center, The Institute for Entrepreneurial Studies, a Citizenship Integration Center and the Community College Consortium for Immigrant Education.
- The College is working to transfer the STEP (Science, Technology, and Engineering Program) program for minority high school students to WCC.

¹Student Success Rate equals total associate degrees after four years plus all Transfers to a four year college plus all Persisters Still Enrolled.

²The non-SUNY transfer data is available for three years only, so the 2004 (four year) cohort reflects the 3-year transfer rate for "Other Transfers" rather than the 4-year rate. Thus, the "Other Transfers" data to private and out-of-state colleges and universities underestimates the actual number of this cohort.

³The aggregated SUNY and sector data use estimated persistence data for the 2005 and 2006 entering cohorts for the 12 institutions that transitioned to the new SIRIS System.

The success rate for students recognizes that many students come to the community college with the intent of transferring before degree completion or may take longer to graduate. With these factors in mind, the success rate for the fall 2006 cohort is **56.7%**.

They include those who were: (1) first-time students in Fall 2006; (2) attended full-time (12 credits or more); (3) were enrolled in an associate degree program in Fall 2006; and (4) graduated or transferred to a four-year college within three years (Fall 2009). Not included are students who *transferred-in* to Westchester Community College in Fall 2006, non-matriculated students, and students transferring to two-year institutions.

**Figures taken from the SUNY Central Administration's Report: *Disclosure of Completion, Persistence, and Transfer Rates for Full-time, First-Time Associate Level Students Entering in Fall 2006*, March 2010. Transfer figures to non-SUNY colleges obtained by SUNY Administration from the National Clearing House.
